**Screen Subtitling Systems Wins Award at IBC for Polistream Black**

Screen Subtitling Systems is proud to be the recipient of a 2009 STAR (Superior Technology Award Recipient) Award for the new product Polistream Black, given by the editorial staff of TV Technology Europe Magazine at IBC 2009.

Delivered via the new processing platform the Universal 4000 (U4000), Polistream Black uses Windows XP Embedded installed on a Solid State Drive, multi-core processors and enhanced software. Supporting all subtitle formats, its multi-function PCI-e based cards are capable of inputting and outputting VBI, ASI, VANC and graphics in any combination.

The STAR Award is designed to celebrate and showcase the preeminent technological innovations available to the broadcast industry.

Commenting on the win, Gary Glover, Screen's Sales and Marketing Director, explained, "The customer feedback has been extremely positive and it is the icing on the cake to win an award."
